Minutes of 9-12-90 meeting

19 members, 1 associate member, & 1 guest present. Meeting was called to order by President **Dan Williams** at 7:02pm. Minutes of previous meeting were approved. Treasurers report was given & approved.

Association Report: Details of picnic were discussed & approved. Club Booth locations for next Symposium will be drawn from hat. Plans for Symposium are well under way.

AMA Report: Lon mentioned that there is a dispute regarding Gold stickers for transmitters & narrow bands. AMA frequency committee is rewriting specs regarding frequency regulating.

Field Report: **New fence is in. Lon made a motion we allocate up to \$700 for driveway stone & leveling, plus stone for parking area.** Prugger will recheck costs. Lisle seconded this motion. Carried unanimously. Field committee will study method of building a structure at each end of culvert to prevent the spread of driveway stone. Lon will check into battery situation in old mower. We should use new mower on flying field only. Use old mower for other parts. Lon will check into adding rollers on new mower to prevent blade & belt damage. He will also check into new wind sock.

Rylon Racing: More help is needed at races. Several members agreed to help at Sept. 16 races.

Flight School: Art Rose mentioned that everything is progressing well. **It was decided to change training time to Saturdays because of shorter evenings now.** Lon suggested that we check off new fliers & give them "wings" where possible. A list of new fliers will be made. We believe this to be worthy of mention in District 2 write-up in the AMA report. We will send in information & photographs.

Old Business: Air Show was a huge success. Lisle suggested we use soft drink dispensers at next years Air Show to save money & no returns. It

was also suggested, at next years show, we provide a small gift for our requested demonstrators, and the reduction of open flying time.

New Business: If you invite a guest to fly, make sure you are with him when he is flying. When the farmer is working in the fields, be sure to keep a good distance away from him with your plane. Glenn Cady suggested we replace small stones in walkway in front of pavilion with flagstones. This was considered to be a good idea, but we decided to shelve it to a later date. **Lon made a motion that members joining club after Sept 1st, be given a \$25 credit for the following years dues. Lisle seconded & carried unanimously.**

We voted in & welcomed new Associate members Dean Monticelli, Greg Jagiello, Don Rasmussen, & Jr. member Michael Pauldine. Motion for adjournment was made & seconded at 8:53pm.

Bits & Pieces

WAS THAT BILL ORR'S BIG ACE BIPE THAT ATTEMPTED TO FIGHT IT OUT WITH A "LEAFY TRUNK"? WELL RUMOR HAS IT THAT THE BIPE LOST, AND NOW RESIDES AT THE HANGAR OF GEORGE LA BEEF. GUESS BILL DOESN'T PUT UP WITH A CONTRARY PLANE!

Tell A Friend

All that white hair you've seen at the flying field must belong to the "Doc" (fortunately he has plenty to go around)...seems Dr. Matloff's plane was caught performing some beautiful maneuvers...unfortunately, his thumbs weren't the ones controlling the planes antics...time for the ole yearly check-up!

Center Stage

The "O'Connell boys" are starting to get their act together...from the youngest to the oldest...the family that flys together has one heck of a building room.

PREZ SEZ

Well, here we are at the end of the season's activities, just finishing up the CNYMAA picnic. For those of you who didn't come, you missed some great food and some lousy weather. However, at about 4 PM, the sun came out and much flying commenced. So in the end it was a good time.

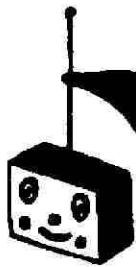

We also had our final pylon race of the season a couple of weeks ago. I emphasize FINAL, because quite a number of planes had their FINAL flight of their lives. Dave Sikorski tried to go ballistic on take-off a little too early with his .25 powered Skat cat. I think that it's back in flying condition now, though. **Bob Rowe** tried to cut the grass too short, only, instead of breaking a mower belt, he broke an engine mount on his Enya powered Skat Cat. Thanks, Bob, for a nice job on the lawn. I was losing to Fran Worth in another race, so I decided that if I can't win, neither will he, and I proceeded to chop his Rossi-powered Spikler right in two with my Rossi-powered Skat. Honest, Fran, I didn't plan to make you lose that way. I just can't figure why two planes can't fly in the same space at the same time. Also Fran, thanks for helping me fix mine up while I started some heats.

It gets BETTER! Randy Smith's Enya-powered Skat Cat was really cooking, so Lon decided to give **Bob Rowe** one of those new pylon racing props that we were fooling around with on our Rossi's. What a race! These two guys were really duking it out for about three laps, when one came right in on top of the other. I'm not sure who started out on top, but all I know is, that it was raining parts all over the race course, the field next to ours, and also the corn field. However, they found all the important parts. **Phil Morgan**, somewhere during all this chaos, was racing Lon Sauter. Lon was racing a Rossi-powered China Clipper, and **Phil** was piloting a Rossi-powered Skat Cat. After about two laps, Phil WAS AHEAD OF LON, coming out of turn three. All of a sudden, Phil decided to take a "long cut" to pylon 1 underground. Right straight in! He didn't have any trouble finding his parts, though. His was in a nice pile in a three foot circle, and some still underground. Despite the casualties, we had some great racing. I'd like to point out that we don't normally wreck this many planes in racing. Check out the final racing results. Thanks to all of the guys who helped make this successful.

Oh well, its getting colder, and its time to think of building for next year. Most of the work is done for this year's club events, so we'll have a short meeting followed by some flying videos (I think its last year's Dayton Airshow) by **Phil Morgan**. Anyway, bring in the plans for your winter projects, and see you at the meeting.

RUMOR HAS IT THAT SANDY BONANO'S NEW P38, given it's 1st FCF 9-27-90, IS QUITE A ZIPPY PLANE.

Was that Ray Payne filtering his plane through the trees? Those trees do seem to crop up at the strangest places!

would you believe...

Mike Humphrey is building a push-pull Sig Kadet...with twin engines, Mike figures he'll never be at a loss for power.

Obituaries

OOPS! What a way to start off the month...10-1-90 saw two airplanes at the Oswego Valley Modelaires field trying to occupy the same air space...which leads to...that's right...a midair splintering of balsa. Art Ezzo's Supra Fly and Mike Humphrey's Bingo are now in "airplane heaven".

IF YOU ARE NOT A MEMBER OF THE STARS & WOULD LIKE TO HAVE THE PLANE PROP WASH MAILED TO YOU, YOU MAY PURCHASE A SUBSCRIPTION FOR THE FEE OF \$4 PER YEAR. PLEASE SEND REMITTANCE, ALONG WITH YOUR NAME & ADDRESS, TO MARGE SAUTER, 2062 RABBIT LANE, PHOENIX, NY 13135. YOUR SUBSCRIPTION WILL BEGIN WITH THE 1ST ISSUE PUBLISHED AFTER PAYMENT IS RECEIVED. CHECKS SHOULD BE MADE OUT TO MARGARET L. SAUTER.

EXTRA!

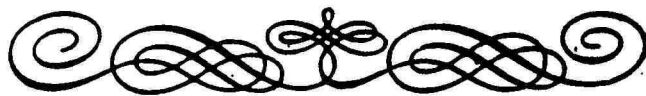

LATE BREAKING NEWS! The recently deceased Bingo may have a transplant and fly again!...under new pilot thumbs.
